

* This class is provided by ED'S SUPPLY CO. and Gene Goff *

With the tremendous increase in efficiency, sizing of HVAC equipment has become more critical than ever. Manual "J" has been the accepted standard for heat gain and heat loss calculations for many years.

This training will educate participants on ACCA's Manual "J8Ae", the abridged edition of Manual "J8". Participants will learn how to use the manual to do heat gain and heat loss calculations using their laptop computer and ACCA's Excel spreadsheet. From sales staff to technicians, this training will help you more effectively size equipment for your HVAC jobs!

Where: Ed's Learning Center
540 Brick Church Park Drive
Nashville, TN 37207

When: Thursday, November 4, 2021
